

## Backpack Attack

### Description

Backpack Attack is an annual event that takes place each August. For ten years Living Word has been partnering with the Rockwood School District to serve the needs of local families who are part of the low-cost/free lunch program and are financially unable to purchase backpacks and school supplies for their elementary age children. It is a mission that allows our community to be important in the life of a child. We expanded the mission in 2020 to include Meramec Elementary. We provide every student in the school with new backpacks, school supplies and classroom teacher supplies.
